

VINYLGUARD®

WINDOW & DOOR SYSTEMS LTD.

ENTRY DOORS
2025

SETTING THE STANDARD FOR OVER 30 YEARS

Since 1991, Vinylguard has been providing Ontario's residential replacement, renovation, and new construction industry with windows and doors of the highest quality, as well as exceptional service and best-in-class lifetime warranty to support them. For over 30 years, our family-run business has remained true to our values, developing an outstanding reputation among dealers and homeowners for our dependability, flexibility, commitment, and expertise. Today, we continue to grow our legacy, upholding our mission to be the best in the industry.

8A - Low-E Full Lite with Black Grills - 1 x 4
8SA - Low-E Full Lite with Black Grills - 1 x 4

Crafted to Perfection, Engineered for Life

Our lifetime warranty provides 100% coverage on all factory-finished composite frames, doorlite frames, and panels against warping, blistering, rusting, cracking, or buckling. This warranty is fully transferable, non-prorated, and offers complete security, satisfaction guaranteed.

Glass seals, hardware, and paint and stain finishes carry their own specific warranties.

QUALITY CRAFTSMANSHIP

We're the best in the industry, passionate about creating quality products, and committed to the highest standards of craftsmanship.

STATE-OF-THE-ART FACILITY

Our state-of-the-art facility allows unrestricted creativity for design, and our precision machining ensures efficient and reliable production, every time.

SUPERIOR DESIGN

Our products dramatically improve the appearance of homes, with compositions that maintain their appearance for a lifetime.

TESTED & CERTIFIED

All our window and door products meet the most current industry standards and are QAI® certified and Energy Star® compliant.

MAKE A GRAND ENTRANCE

DESIGN YOUR ENTRY DOOR IN 3 EASY STEPS

Don't try to fit the mold—make the mold. Choose from one- or two-panels, single or double sidelites, and a variety of transom designs to create an entrance that caters to you. Whether you're searching for the durability of steel or the elegance of fiberglass, we've got you covered. Let the light in with your choice of versatile doorlite glass sizes available in our Classic Glass, Privacy Glass, Decorative Sandblast Glass, Decorative Glass, or Wrought Iron Glass collections tailor-made to your unique needs and taste.

COMPOSITE FRAMES

SMOOTH

1 EXPERT CONSTRUCTION

Tested in partnership with the University of Waterloo, our Entry Door system achieved exemplary results in water penetration resistance when compared to commonly used wood materials. The composite frame is structurally more robust, with enhanced rigidity making it more resistant to warping, bowing, and twisting.

3 RIGOROUSLY TESTED

Our Entry Door system achieved a combined water, air, and structural NAFS designator of PG40, resisting 8 inches of water driven at 80 km/h and providing continuous non-rot protection against the weathering elements.

2 SELF-DRAINING SILL

Effortlessly re-routes excess water and channels moisture away from the home through built-in water reservoirs for an added layer of protection against the North American elements. The sill is comprised of high-quality structural composite materials and provides a sturdy stepping surface for high-traffic moisture-prone areas.

4 CONTINUOUS WEATHERSTRIP

Prevent unwanted water and air from infiltrating your home with an uninterrupted weatherstrip seal that enhances noise reduction and improves indoor comfort year-round.

WOODGRAIN

1 HANDCRAFTED TEXTURE

Our Woodgrain Entry Door system is virtually indistinguishable from real wood with an authentic and refined closed-grain texture available in four signature hand-applied stains: Raw Honey, Hickory, Antique Brown, and Dark Amber.

3 UNMATCHED PERFORMANCE

Achieving an impressive PG55 in structural performance on a single inswing, the composite frame can withstand wind speeds up to 246 km/h, equivalent to a catastrophic category 4 hurricane.

2 PROTECTIVE SWEEP

The sweep is comprised of an automotive-grade synthetic rubber that can withstand temperatures reaching as low as -40° F and as high as +180° F for an insulative and weather-resistant seal.

4 POLYURETHANE FOAM CORE

Our Steel, Smooth Fiberglass, and Woodgrain Fiberglass Entry Door panels are equipped with a high-performance polyurethane foam core for long-term efficiency and insulating thermal resistance.

HIGH-PERFORMANCE GLAZING

Enhancing the outstanding thermal efficiency of all our entry doors is 1-inch high-performance glazing which includes tempered Low-E glass, argon gas, and Super Spacer technology, so your home stays cool in the summer and warm in the winter. Our dual-glazed package is Energy Star® compliant, ensuring environmental protection and superior energy efficiency all year long.

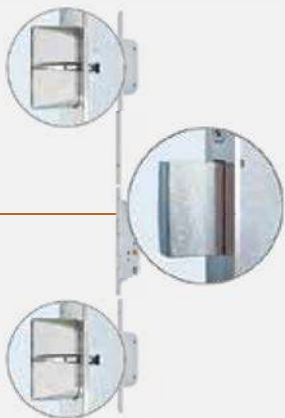

HARDWARE

HANDLE & LOCK SYSTEMS

MULTI-POINT LOCKING SYSTEM

The Multi-Point locking system uses intuitive European technology that doesn't compromise on style or security. By simply closing the door, the upper and lower ¾" latches will instantly engage. Engaging the 1" deadbolt by turning the key from outside or the knob from inside will block the top and bottom latch bolts, making it a secure 3-deadbolt locking system.

VENICE
9" Faceplate

Available in Satin Nickel or Flat Black. Active and inactive handle sets available.

ROMA
12" Faceplate

Available in Satin Nickel or Flat Black. Active and inactive handle sets available.

MODERN
18" Faceplate

Available in Satin Nickel or Flat Black. Active and inactive handle sets available.

COLONIAL
17" Faceplate

Available in Satin Nickel or Flat Black. Active and inactive handle sets available.

PULL BARS

ROUND

Available in Satin Nickel or Flat Black. Includes Hardware Pulls, 2 heavy-duty adjustable roller catches, and 1 deadbolt. Active and inactive handle sets available. Available in 72" and 48" lengths.

SQUARE

Available in Satin Nickel or Flat Black. Includes Hardware Pulls, 2 heavy-duty adjustable roller catches, and 1 deadbolt. Active and inactive handle sets available. Available in 72" and 48" lengths.

ADDITIONAL HARDWARE

DECORATIVE HINGE TIPS

Available in Satin Nickel, Brass, or Flat Black.

PEEPHOLES

Available in Silver, Flat Black, or Brass.

INSULATED MAIL SLOTS

Available in Silver, Flat Black, or Brass.

INDUSTRY-LEADING FRAME CONSTRUCTION

This level of strength and durability comes through the highest degree of craftsmanship and the very best materials. Browse through the following benefits to discover the Vinylguard difference.

SELF-DRAINING SILL

Through built-in water reservoirs, it re-routes excess water and channels moisture away from the home effortlessly, bringing an added layer of protection for your home.

SUPERIOR WEATHERSTRIPPING

Prevent unwanted water and air from infiltrating your home with an uninterrupted weatherstrip seal. It also reduces outdoor noise and improves indoor comfort year round.

TOP-TO-BOTTOM PERFORMANCE

Our composite frame can withstand overwhelming wind speeds of up to 246 km/h, equivalent to a catastrophic category 4 hurricane.

WELDED CORNERS

To add an extra layer of protection, welded corners make joints airtight while providing more stability than commonly used non-welded frame materials.

REINFORCED MULL POST

Our NAFS-compliant reinforced mull post can withstand 70% more force than back-to-back jambs. It maintains measurements under heavy stress loads so any door can be hung without sag.

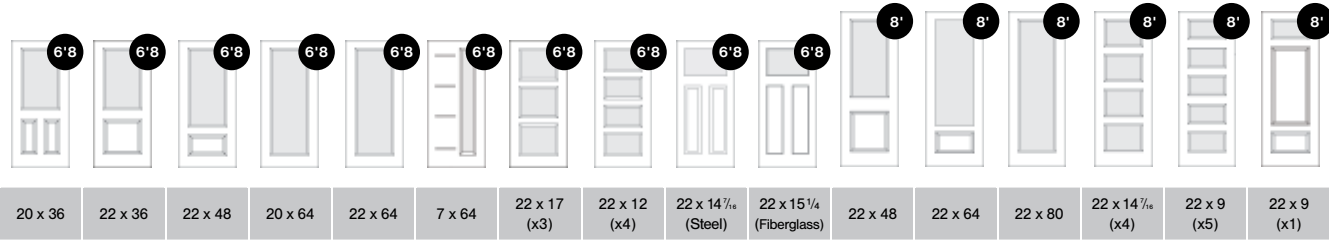

DURABLE ENTRY DOOR SWEEP

The sweep keeps the elements where they should be—outside. It does so through an automotive-grade synthetic rubber that can withstand temperatures reaching as low as -40°C and as high as +82°C.

SELECTING
YOUR DOORLITES
& SIDELITES

Refer to the following charts for all available Classic Glass, Privacy Glass, Decorative Sandblast Glass, Decorative Glass, and Wrought Iron Glass collection doorlites and sidelites in Steel, Smooth, and Woodgrain Fiberglass materials and their associated codes. When choosing your front entry door system, remember to give your authorized Vinylguard dealer the door code you have selected.
